MEMORANDUM FOR: Director of Central Intelligence
Deputy Director of Central Intelligence

FROM: SA/DCI/IA

SUBJECT: Your Friday Break fast Meeting with Secretary Weinberger,
22 June 1984

1. You are scheduled to have breakfast here at the Agency with Secretary Weinberger and Deputy Secretary Taft. Defense had only one item for Friday's agenda:

-- Libyan-Belgian Nuclear Cooperation.

[REDACTED]

[REDACTED] During April Libya and Belgium discussed the possibility of extending their nuclear cooperation. The centerpiece of that negotiation is a draft protocol which is ambiguous with respect to Belgium's obligation for providing nuclear fuel cycle technology to Libya. To date, Libya has been unhappy with Soviet support but has been unable to find other sources. Belgium has delayed final approval of the protocol which in turn had caused Libya to threaten the entire range of Libyan-Belgian commercial relations. Brussels will be under strong pressure from Britain and other Western states not to sign the protocol or to provide major nuclear technology. At the same time, however, Brussels has said it will not participate in any attempt to embargo all nuclear assistance to Libya.

2. We have not suggested any items for Friday's agenda. In the DDCI's view this should be a session at which you can "shoot the breeze". As backup, however, I have included:

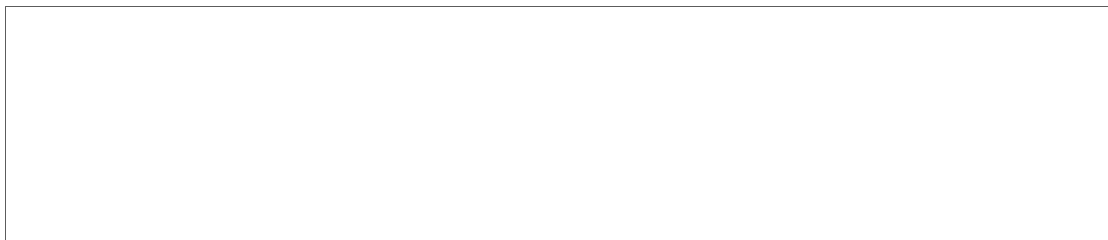

-- Landsat for Romania.

3. I have also included, at TAB C, the contingency talking points on your paper, which you sent to SecDef earlier in the week, entitled "US-Soviet Tensions".

4. If there is anything else I can do to help prepare you for this meeting, please call.
